

— COMPREHENSIVE TRAVEL EDUCATION

Travel Security

COMPREHENSIVE PERSONAL & FAMILY EDITION

Most travel emergencies are preventable — and most prevention starts long before you board the plane. This course gives the everyday traveler the knowledge, mindset, and tools to travel safely and confidently, whether your trip is across the state or across the world.

4 HOURS | AGES 18 & UP | NO PREREQUISITES | 14 MODULES | JUNE 28, 2026

WHY YOU NEED THIS

What you don't know before you leave is what you'll face when something goes wrong.

Vehicle accidents are the leading cause of injury death for U.S. travelers abroad. Cybercrime has displaced pickpocketing as the top travel security threat. AI now clones a family member's voice from three seconds of audio. The risk environment has changed faster than the standard travel advice. This course closes that gap — covering the full spectrum of risks from **pre-trip planning to crisis response**, with no jargon and no alarm.

This is not a basic travel safety brief, and it is not a corporate security course. It is a comprehensive program built on the principle that travelers deserve direct teaching of every relevant topic — including the ones most courses skip.

TRAVEL WITH CONFIDENCE

Replace uncertainty with knowledge — informed preparation rather than vague concern

PREVENT WHAT'S PREVENTABLE

The pre-trip work that eliminates the majority of travel emergencies before they start

HANDLE THE UNEXPECTED

Tested protocols for the moments that intuition alone won't carry you through

GET THE WHOLE PICTURE

14 modules covering every chapter — including the topics most courses skip

WHAT YOU'LL LEARN

- ▶ Layered security & risk mindset
- ▶ Pre-trip planning & STEP enrollment
- ▶ Hotel security & passport handling
- ▶ Digital, financial & border crossings
